Custom Order Procedure

Best Plush Inc. is a plush designer, maker, and importer since 1988. We are specialized in custom manufacturing, offering free design and free custom physical prototype This is the procedure:

1. To start, we will study your project in detail. When it is clear to us, we will prepare a free comprehensive quote addressing everything related and listing all costs.
2. Within 3-5 days after you accept our quote, we will create a free prototype (actual custom plush to your spec) and share the images/videos of the prototype.
3. You can share the images with your client. You can also receive the prototype in 3-7 days if you pay the freight of \$49. The freight is the **total** of your preproduction cost.
4. Free unlimited modifications are offered at your request.
5. You can place the order when you are ready. Your order can be delivered as soon as within 28 business days. Find the details in our quote.

For us to make the free prototype, please place a good-faith deposit for \$199 to \$299 (see the quote for details). The deposit will be fully refunded to your final order.

For more information, please review our [Custom Order Programs](#).
